---

I am absolutely astonished how there are so many people who just can not see that the Constitution is literally being ripped apart right in front of them. Some people just can't grasp the consequences of ignoring that Election Fraud occurred, let alone the ramification of what losing the Constitution really means. I will try to make it simple, NO CONSTITUTION = NO AMERICA! - It is the glue that built this nation and what keeps America Free in turn bringing hope to the world and millions of people inspired to live rich and prosperous lives AKA The American Dream.

So, let's look at some of the ramifications (which we can already see occurring).

The 1st Amendment is what allows for FREE SPEECH. If you refuse to admit that major Media and Social Media censorship isn't occurring right now or doesn't exist at all, you need to look long and hard at it, because it's right in front of you. People get mad when I say they have been brainwashed, though it has indeed been going on for decades (yep, all of our lives) - a well executed operation of mind control and manipulation. (see [The Deep State > Mockingbird](#))

As for the internet, currently if BIG TECH doesn't like what you post they will just delete it or block your account. That limits you from being able to get or even process another person's opinions and vice versa. This is a travesty and an assault on your 1st Amendment rights. However, it is indeed worse overseas (for now), people have been hauled off to jail for their opinions (last week, not the 1940's) - see [COViD > Dr. Jailed for live streaming](#). Lastly I need to mention AOC's statement about blacklisting Trump supporters. I don't care how much you hate Trump, this is Un-Constitutional and vile on so many levels, It should scare the shit out of everyone. ([Link](#)). Think about the above, if they can do this to a sitting president what makes you "important"?

The American Economy - COViD has proven how fragile our economy is and today we are on the brink of even tougher lock downs. It's estimated the next one could wipe out a large part of the middle class. This will leave a two class system. Good news they have a plan for that, Universal Basic Income. Sure, some people may love that idea, never having to work again. What these folks don't understand is THAT'S IT! I could make a whole article for it but I recommend you try and speak to people from other countries that live this way. They will tell you it's not all that's cracked up to be. Additionally, America is called the Land of Opportunity for a reason, immigrants come here to make a better life for themselves. Talk to them, ask some of these people why they chose America. In fact, most of our own families came here for that very reason. When that option is gone, there's nowhere for them to go, in fact there won't be anywhere for Americans to go either.

FREE and FAIR Elections .. the reason I'm typing this .. if you are still on the fence if this election was fraudulent, I implore you PLEASE view what I have to present. Search and research for others opinions - while they can still be viewed - while we still have a 1st Amendment. This is called DUE DILIGENCE .. "It's not what your country can do for you.. " and we owe it to the men and women who died for America, to at the very least, listen to what people like me are saying. PLEASE Take your time, do your research, make up your own mind - THiNK 4 YOURSELF!
